

Information on REACH Regulation and RoHS Compliance

Dear customer and business partner,

We at KIS Antriebstechnik GmbH & Co. KG are a system supplier for industrial applications for rolling bearings and slewing rings. In our delivery process, we attach great importance to compliance with the currently valid regulations regarding RoHS conformity and the REACH regulation.

REACH Regulation

The European Chemicals Agency (ECHA) has published on its website (www.echa.europa.eu/de) under the heading "Information on chemicals" a list of substances of very high concern that meet the criteria of Art. 57 of the REACH Regulation and have been identified in accordance with the procedure of Art. 59 of the REACH Regulation.

We hereby confirm and assure that the products currently supplied by KIS Antriebstechnik GmbH & Co. KG do not contain any products containing substances from the current REACH Candidate List (SVHC list) in a concentration of more than 0.1 percent by weight.

Our obligation under the REACH Regulation to continuously review the ECHA Candidate List for additions and updates and to continuously ensure REACH conformity for the products supplied, as well as to inform our customers immediately in the event of deviations, is also hereby confirmed.

RoHS 2011/65/EU and 2015/863/EU

The terms "RoHS 2 or RoHS 3" are not official, but commonly refer to Directive 2011/65/EU and the supplementary Directive 2015/863/EU, which recently expanded the list of hazardous substances to 10 substances.

RoHS	Directive 2002/95/EC
RoHS 2	Directive 2011/65/EU
RoHS 3	Directive 2011/65/EU + Supplement 2015/863/EU

The details and information you receive from us regarding RoHS always refer to the currently valid status, in this case RoHS 3.

The suppliers of the components selected by KIS Antriebstechnik GmbH & Co. KG are requested by us to supply us only compliant components and to report to us immediately any deviations from the REACH regulation and the corresponding RoHS conformity that have actually been detected or suspected.

If you have any questions, please do not hesitate to contact us.

Yours sincerely,

KIS Antriebstechnik GmbH&Co. KG
